“ This isn’t just another Mini LED - Samsung’s advanced Mini LED offers brighter visuals, purer colors, and enhanced contrast with the same power as conventional TVs, all AI-optimized, making it an affordable AI TV ”

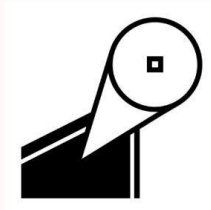

TOP Features

Vision AI Companion

Watching becomes more engaging as questions are answered on screen. Instant insights appear naturally, enriching every moment.

Mini LED

Scenes look brighter, and colors feel more alive. Mini LED sharpens light control, delivering clearer contrast and a more refined picture overall.

Motion Xcelerator 144Hz

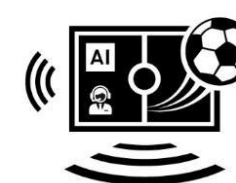

*M80H

Every move feels quicker and more precise. Smooth motion and AI tuning keep you fully locked into the action.

AI Soccer Mode

*M80H

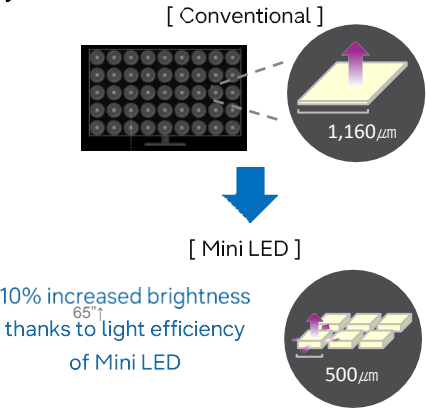

It feels closer to the stadium—clear players, punchy color, and commentary you don’t miss.

 Sales Talk !

Optimized LED source with Pure Spectrum Color NEW

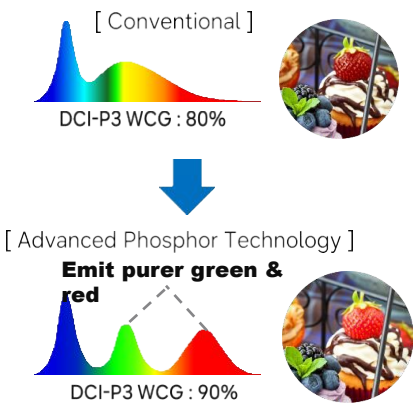

Mini LED HDR

Mini LED HDR pushes brightness and contrast further, so highlights hit harder and dark scenes stay controlled.

Pure Spectrum Color

Dynamic Crystal Color delivers wide, vivid color that feels rich, balanced, and immediately striking.

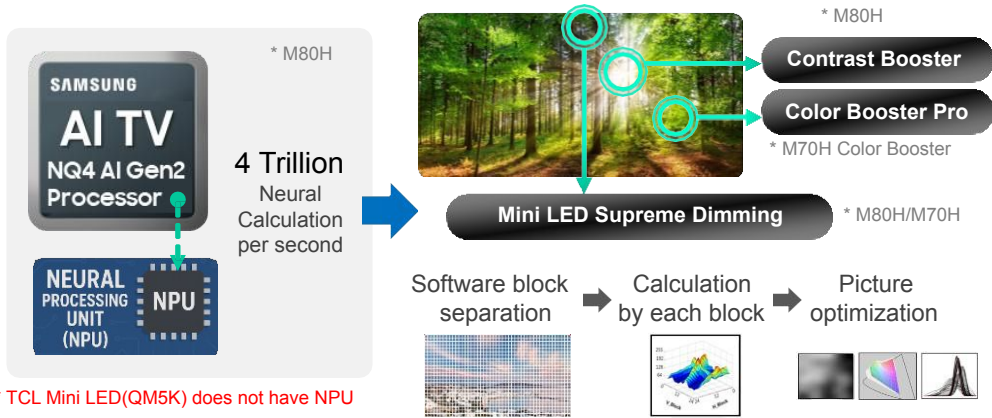

M80H: NQ4 AI Gen2 Processor
M70H: Mini LED Processor 4K

NEW

Unparalleled Processor

Powered by Samsung's advanced AI processor, it delivers sharp contrast and vibrant colors. Unlike competitors without an NPU, Samsung's Mini LED stands out as an affordable and competitive AI TV.

Vision AI Companion Upgrade

Talk to your TV naturally to search, ask questions, and get information on screen, keeping every match uninterrupted and fully immersive.

M80H

AI Sound Controller NEW

Every line stays clear, every action keeps its impact—perfectly balanced in real time.

AI Soccer Mode (AI Football Mode)

M80H: AI Soccer Mode
M70H: Soccer Mode

NEW

Brighter highlights and deeper blacks pull you deeper into every scene, making scenes feel more intense and realistic.

Top 4 Features

Vision AI Companion

Mini LED

Pure Spectrum Color

Dynamic Sound Pack

10 Seconds Pitch

M70H delivers more vivid colors that are difficult for competing products to achieve without a Quantum Dot sheet, all at an accessible price.

Additionally, you can have a smart experience where you can ask Bixby anything and get an answer.

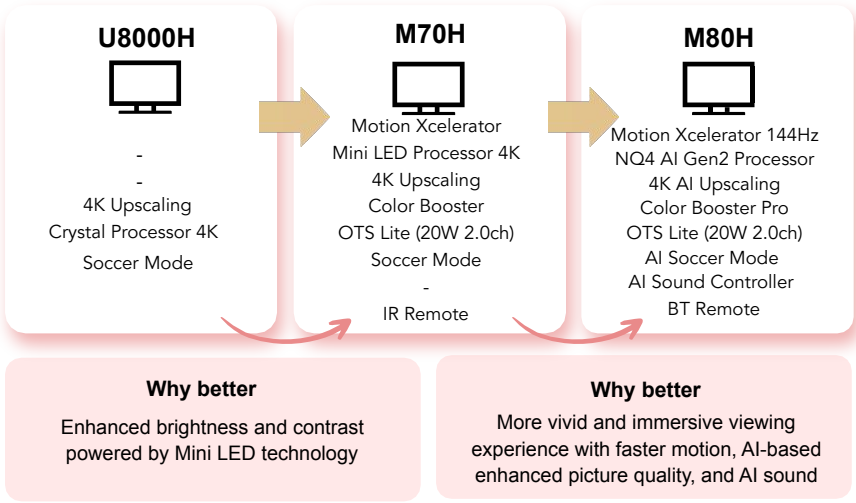

Key Points

- 1 Thanks to **Vision AI Companion**, getting information feels simple and stays part of the viewing experience.
- 2 **Mini LED** helps everything look cleaner on screen, especially when scenes get bright.
- 3 **Pure Color Spectrum** lets you see more shades, not just stronger colors.
- 4 You don't just hear the sound in front of you—it feels like **it surrounds the room**.

Adding Values

- Mini LED HDR**
brings out deeper contrast and finer details in every scene.
- Karaoke**
Transform your TV into a karaoke stage, with your phone as the mic.
- MetalStream Design**
Elegant metal stream design to upgrade your space.
- AI Energy Mode** **AI**
TV saves energy by automatically detecting your surroundings.
- 7-years OS upgrades**

Up-selling Points

Cross-selling Points

- **Soundbar B450F**
The best sound experience for the best picture.
- **Slim fit wall mount**
Take away everything but the screen to create the perfect cinema experience.
- **Music Studio 5**
Sound that fills the room and pulls you deeper into every scene and game.
